5th Annual Financial Literacy Conference For K-12 Teachers and Financial Literacy Practitioners

Monday, November 15, 2010

Session Summaries/Presenters

Gr. K-5 Sessions:

Money Savvy Kids Basic Personal Finance Curriculum

Learn how to teach sophisticated personal finance concepts through storytelling and scripted presentations with interactive activities. Susan Beacham, Money Savvy Generation

Teaching Financial Literacy Readiness with Language Arts and Math

Teaching financial literacy concepts and strategies can be FUNdamental for the K-5 classroom! Experience a multitude of resources for teachers that connect popular children's literature and mathematics to personal finance and economics in the K-5 classroom. This session promises to bring you new lesson ideas and hands on activities that will enhance your curriculum and provide new approaches to teaching language arts and mathematics. Nancy Hanlon Harrison, Econ IL

Business & Economics - Six Sequential Themes

Junior Achievement's elementary school programs are the foundation of its K-12 curricula. Six sequential themes, each with five hands-on activities, as well as an after-school program, work to change students' lives by helping them understand business economics on an age-appropriate level that reinforces what is being taught in the classroom. Michael Horton, Junior Achievement

5th Annual Financial Literacy Conference For K-12 Teachers and Financial Literacy Practitioners

Monday, November 15, 2010

Session Summaries/Presenters

Gr. 6-8 Sessions:

Young Illinois Saves

Learn about *Young Illinois Saves*, a program that uses peer based education in the form of motivational campaigns led by teens to provide students with the motivation and opportunity to save. The campaign includes motivational and educational materials, presentations and youth media that support the message to save and teaching students the benefits of saving, the need for saving and how to save. Tracy Frizzel, Illinois Economics Council

Junior Achievement's Pillars of Success

Junior Achievement's middle grades programs for students includes economics and business curricula. The dynamic interaction between the volunteer and students promotes active learning and brings theory to life. Michael Horton, Junior Achievement.

Save That Penny For A Sunny Day –Presents- Thirty Minute Fun Shop To Prosperity

Deservability, Train Your Thoughts and Train Your Life, and Treasure Mapping. Xernona Woods, XWOODS Enterprise.

Implementing the Wealth Watchers Program into Curriculum

Wealth Watchers helps students set and track a daily goal for spending and saving. One student commented that "I never realized how much money I actually spend because I never took the time to look at it. I have learned so much by keeping track of my spending every day; it was definitely eye-opening for me because I did waste money on pointless stuff. Alice Woods, Wealth Watchers.

Teaching Financial Literacy through Entrepreneurship

An understanding of the foundations of entrepreneurship helps to explain good business decisions, practices, and profits. Teaching entrepreneurship can incorporate both economic and personal finance while bringing lessons about our economy to life! This session brings to you new teaching resources, hands on lesson plans, and activities that supplement your curriculum to incorporate the teaching of entrepreneurship. Beth Metzler, Econ IL

5th Annual Financial Literacy Conference For K-12 Teachers and Financial Literacy Practitioners

Monday, November 15, 2010

Session Summaries/Presenters

Gr. 9-12 Sessions:

Teaching Financial Literacy through Entrepreneurship

A sound understanding of the foundations of entrepreneurship helps to ensure good business decisions and practices. Teaching entrepreneurship can incorporate both economic and personal finance to bring lessons and activities to life! If you want to give your students an opportunity to succeed - this session promises to bring you new teaching resources, hands on lesson plans, and activities that will enhance your curriculum and provide new approaches to teaching entrepreneurship.

Beth Metzler, Econ IL

ICEA Presentation

Illinois Consumer Education Association history and purpose- Joan Widok & Betsy Davis
Journal of Consumer Education- New Editors
LifeSmarts- Joan Kinney, Don Zabelin and Deb Bartman
New Credit Laws- Deb Bartman

Young Illinois Saves

Learn about *Young Illinois Saves*, a program that uses peer based education in the form of motivational campaigns led by teens to provide students with the motivation and opportunity to save. The campaign includes motivational and educational materials, presentations and youth media that support the message to save and teaching students the benefits of saving, the need for saving and how to save. Tracy Frizzel, Illinois Economics Council

NEFE High School Financial Planning Program

Introducing the updated National Endowment for Financial Education's (NEFE) High School Financial Planning Program curriculum. This practical, non-commercial program easily compliments existing curricula being used in high schools and agencies who teach topics like: financial planning, budgeting, investing, credit cards, consumer fraud and identity theft, insurance, and careers. The session will help teachers learn how to use the curriculum effectively, including the supplemental materials: on-line resources, quizzes, tests, presentations, as well as personalized assistance available from NEFE, Extension, and ICUL. Participants will receive a sample student workbook, instructor's manual, and other helpful resources. All educational materials from NEFE, including student workbooks and instructor's manuals, are provided for FREE to high schools and agencies. Presenters are Katherine Reuter, University of Illinois Extension and Melanie Murphy, Illinois Credit Union League.
