Stacey Gardiner
Database and Logistics Consultant
Jump\$Tart Coalition for Personal Financial Literacy

After many years of handling Jump\$Tart's offsite events, Stacey Gardiner, Database and Logistics Consultant, has expanded her role to include support for the entire Jump\$Tart operation as our new CRM database manager. But don't worry, you'll still see her at Hill Day, the National Educator Conference, and our annual April events.

Aside from her role at Jump\$Tart, Stacey is a well-respected consultant in the outsourcing industry. Prior to founding The Gardiner Group (TGG), Stacey held corporate positions in the Washington, DC metropolitan area in hotel management, development, and the management of professional development training, seminars, symposiums, and national conferences, in addition to having managed a non-profit association. Stacey has held leadership positions with the Potomac Chapter of MPI, including Co-Chair of Education and the Board of Directors for Education and Chapter Initiatives.
